

# Policy Statement Relating To Computer Use

**In keeping with the parish policy on safeguarding children the use of computers and internet facilities should be carefully monitored and managed by leaders at all times during parish activities.**

Computer use by children during parish activities should be supervised by a responsible adult/s leader/s at all times.

The reasons for using computers should be deemed appropriate to parish activities by leaders at all times.

Where internet is being used during parish activities all users should source materials under leader's supervision.

Parental/guardian permission should be obtained prior to the supervised use of computer / internet during parish activities by children.

Appropriate recording systems should be in place to record children's use of internet.

## Parental / Guardian Consent Form for Computer / Internet Use.

I understand the necessity for responsible adult supervision for children while using computer / internet facilities.

I give my permission for .....(name of son/daughter) to use the computer facilities under the supervision of designated leader/s during parish activity where this use is deemed appropriate.
