

SUPERVISION RATIO

Children under 8 years:

- 0 to 2 years = one adult supervisor for every 3 children
- 2 to 3 years = one adult supervisor for every 4 children
- 3 to 7 years = one adult supervisor for every 8 children
- (6 children for outdoor activity, 4 for pilgrimages / residential)

8 years and over:

- Two adult supervisors for every 20 children (15 children for outdoor activity).
- There should be one additional adult supervisor for every extra 10 children.
- For residential and pilgrimages this ratio is to be decreased to one adult for every 5 children. This is to allow for adequate free time for all leaders.
